### PROFILE

I am Desmond Emojevu, a passionate and self-driven full stack software developer with 8+ years of experience and knowledge of building and scaling frontend and backend applications.

It is my goal to to leverage my abilities to meet your company's vision and goals.

### WORK EXPERIENCE

#### Backend Engineer, Feedxpay

[www.feedxpay.com](http://www.feedxpay.com)

February 2024 - September 2024

Created backend API to enable cross-border payments, cards, wallets and RESTFUL APIs for businesses.

#### Full Stack Developer, Sellz

[Sellz.co](http://Sellz.co)

February 2023 - July 2024

Create a marketplace for buyers/sellers. With Sellz, you can sell any kind of digital product to anyone, anywhere in the world and accept payments in any currency

#### Ledga Innovative Solutions Ltd. | Abuja

[ledgafinance.com](http://ledgafinance.com)

April 2022 - August 2022

Ledga is a great Fintech app for schools and I used my expertise in backend development and microservices architecture to create the well tested and documented APIs. The fun part is creating the payment processing services that enable students, merchants and the schools to send and receive money almost instantly at no charge to themselves and also to their local bank accounts!

#### Tech Lead, Gopluva Ltd.

2020-2022

[www.kokolity.com](http://www.kokolity.com)

I led the team to build a multi-tenant platform that can power ecommerce businesses at all scale.
